safety

How our process works

01.

Identify requirements

Exact personnel requirements are identified.

02.

Publish job advert

We produce a customised job advert and actively and passively search for candidates.

03.

Make preliminary selection

We carry out the preliminary selection process and recommend suitable candidates.

04.

Make second selection

You carry out the second selection process and choose applicants.

05.

Make decision and hire staff

You/we make the decision and hire staff.
